

Emotional Smarts

What's the secret to raising confident, happy kids? It starts with emotional intelligence.

Hello,

I'm pleased to announce that in partnership with the Yale Center for Emotional Intelligence, GreatSchools is launching the GreatKids Emotional Smarts content collection. In it you'll find articles, videos, and activities you can use to raise kids who are strong and healthy from the inside out.

GreatSchools understands that emotional skills are just as important as academic skills. Emotions influence our decision-making and color our relationships. Research has found that children who develop emotional intelligence skills are kinder, happier, healthier, and more successful.

To help your kids become strong and healthy from the inside out go to:

greatschools.org/gk/emotional-smarts/ today.

Sincerely,

Bill Jackson
