All about friends

Where to start: This year, kids are learning to understand and use question words, including who, what, where, when, why, and how. They are also learning how to express their opinions! Start with a conversation about friends and the kinds of activities that it's fun to do with a friend.

Prompt: Who is your favorite person to play with? Why? What do you like to play with them?

How to go deeper: What makes someone a good friend? Does your favorite playmate have that quality? (Use the back of this page to write.)
