Scary, creepy, icky, gross!

Where to start: Keep things light as you start with a conversation about things that make you go, "Ewwww." Worms? Dirty diapers? Spiders? Slime? Follow their lead as you talk about things that are icky, creepy, or scary.

Prompt: Write about something that scares you or makes you feel creeped out. What makes it so scary or creepy?

How to go deeper: Sometimes things scare us that are not really dangerous. Can you think of something that feels scary but is really safe? (Use the back of this page to write.)
