Role models

Who do you want to be like when you grow up? Why?

Keep in mind: It could be a public figure, a teacher, a family member, or a friend. Think about the qualities of the person you aspire to be like. What strengths do they have? What habits seem to help them in their goals? (It’s OK to do a little research.)

Bonus: Who are you a role model for? Does this awareness that someone looks up to you influence your behavior? If so, how? (Use the back of this page to write.)
