Adding coins

Use three coins each time.
How many different totals can you make?

10¢ + 1¢ + 1¢ = 12¢

25¢ + 5¢ + 1¢ = 31¢
Adding coins

Use three coins each time. How many different totals can you make?

Adding coins:

\[10¢ + 1¢ + 1¢ = 12¢\]

\[25¢ + 5¢ + 1¢ = 31¢\]

Suggested totals only:

\[25¢ + 1¢ + 1¢ = 27¢\]

\[1¢ + 5¢ + 10¢ = 16¢\]

\[10¢ + 10¢ + 10¢ = 30¢\]

Encourage children to keep track of the different combinations of coins that they use. In this way, they can avoid repeating combinations.
