

# Dividing by 10

One dollar is worth the same as ten dimes.

How many dollars are there?

30 dimes

$$\boxed{30} \div 10 = \$ \boxed{3}$$

60 dimes

$$\boxed{\phantom{00}} \div 10 = \$ \boxed{\phantom{00}}$$

40 dimes

$$\boxed{\phantom{00}} \div 10 = \$ \boxed{\phantom{00}}$$

50 dimes

$$\boxed{\phantom{00}} \div 10 = \$ \boxed{\phantom{00}}$$

90 dimes

$$\boxed{\phantom{00}} \div 10 = \$ \boxed{\phantom{00}}$$

100 dimes

$$\boxed{\phantom{00}} \div 10 = \$ \boxed{\phantom{00}}$$

10 dimes

$$\boxed{\phantom{00}} \div 10 = \$ \boxed{\phantom{00}}$$

20 dimes

$$\boxed{\phantom{00}} \div 10 = \$ \boxed{\phantom{00}}$$
