

The growing show

Observations

Are you growing bigger? All living things grow. When you eat, your body uses some of the food to help you grow.

Science activity

Place a check mark (✓) in the box beside each picture that shows a living thing growing bigger.

Science exploration

Have an adult measure your height at least once a week. Are you growing? Explain.

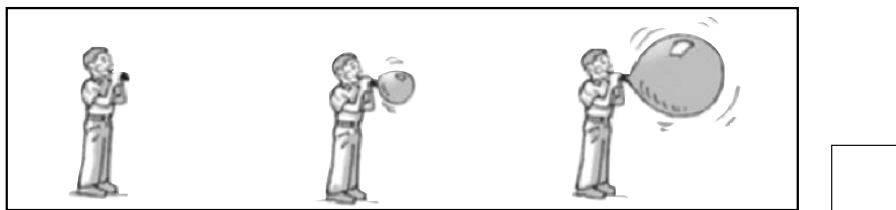

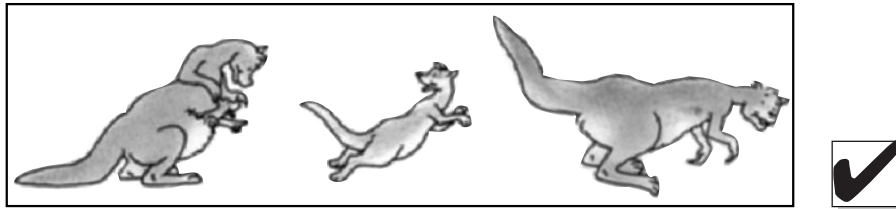

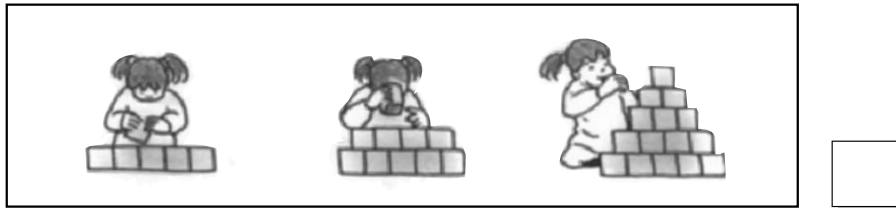

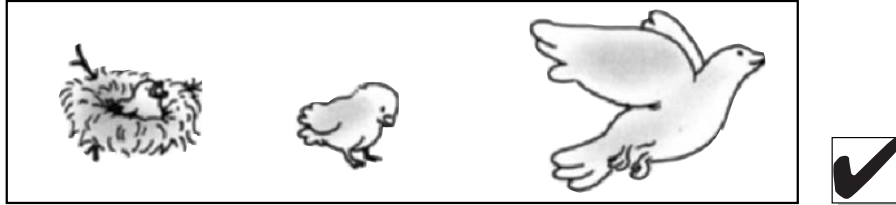

The growing show

Observations

Are you growing bigger? All living things grow. When you eat, your body uses some of the food to help you grow.

Science activity

Place a check mark (✓) in the box beside each picture that shows a living thing growing bigger.

Science exploration

The child should understand that all living things grow. Placing the objects in chronological order will help reinforce this concept. Ask the child to explain how the “growing” balloon differs from the growing bird.
