

Animal homes

Observations

Animals are found in many different places. Some live in gardens, some live in forests, others live in ponds, or in the ocean.

Science activity

Draw a line joining each animal to the place it lives.

Science exploration

Dig up some soil and place it in a coffee can. Pour the soil over some newspapers and record what you see. Use a magnifying glass to see small critters. Wear plastic gloves.

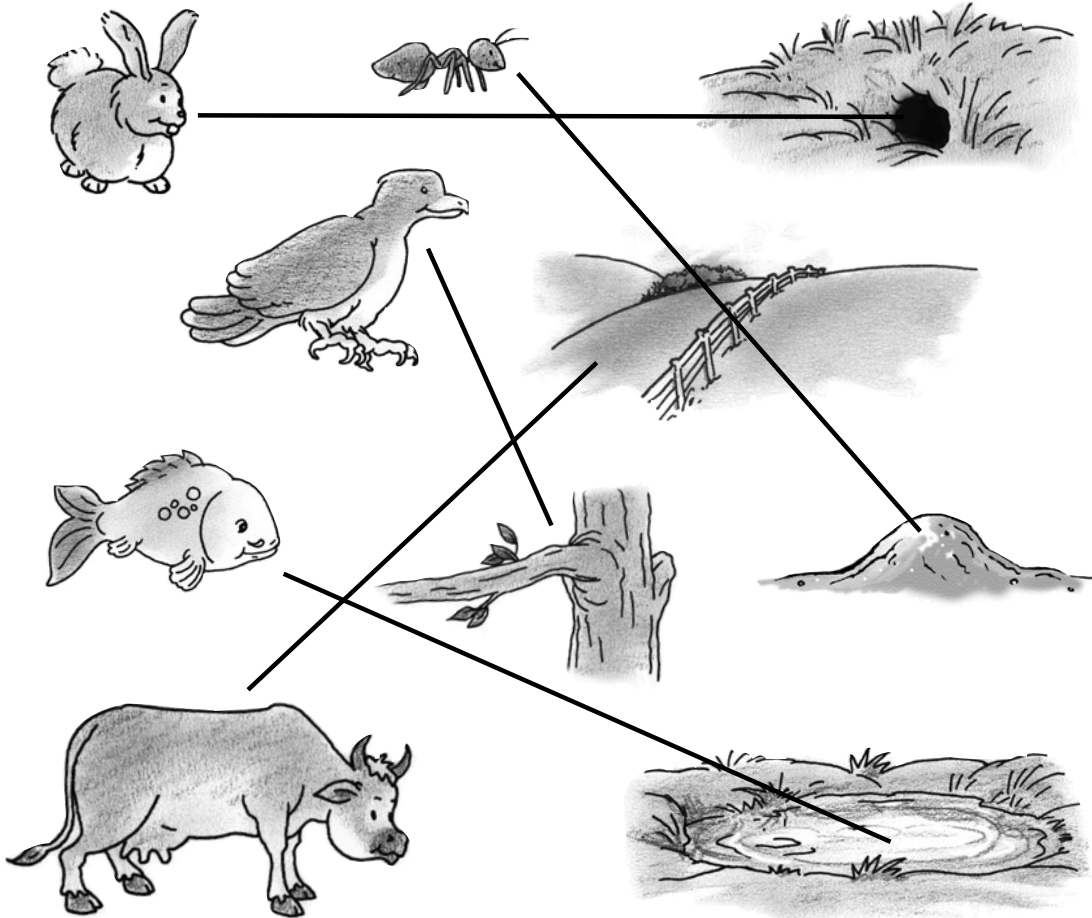

Animal homes

Observations

Animals are found in many different places. Some live in gardens, some live in forests, others live in ponds, or in the ocean.

Science activity

Draw a line joining each animal to the place it lives in.

Science exploration

The child learns that living things live in many different habitats: soil, trees, water, etc. Soil should have many small critters that can be seen with a magnifying glass.
